Electric Scooter Riders - Be Streetcar Safe

It seems like electric scooters are everywhere these days, and that includes sharing the road with the Cincinnati Bell Connector. In an effort to keep residents safe, here are a few safety tips to use when riding electric scooters near streetcar vehicles:

Don't ride scooters between streetcar tracks... it's hard to cross the tracks safely from this angle to get out of the way of a streetcar.

Cross the tracks at a right angle: scooter tires can get caught in the gap next to the rail. Riders should try to cross streetcar tracks at as close to a right angle as possible.

Be careful in the rain and snow. Streetcar tracks can be slippery when wet, so use extra caution.

Use your head! Always wear a helmet and other protective gear when riding.

Look and listen...never cross in front of a moving streetcar.

Beware of the door zone - watch for motorists opening vehicle doors into your travel space as you pass; don't swerve into the path of other vehicles or the track gap.

Be sure to obey all traffic laws. Note: It is illegal to ride electric scooters on the sidewalk, doing so could result in a fine.
